Trees are vital to help slow the climate emergency, clean our air, sequester carbon and water and look beautiful. They have a right to exist alongside us and no way of protecting themselves from our short sighted destruction.

Thank you for allowing public comment on Project 3018093 at 9666 51st Ave S. With at least 50 requests to PRC@seattle.gov, please hold a public meeting to review the environmental and landuse issues of the proposed clear-cutting of a large wooded lot bordering Kubota garden.

Thank you

Abbie
